

Pegasus provides independent pensions executive services, including outsourced pensions management, scheme secretarial and specialist support to projects, pension scheme trustees and corporates.

Scheme Secretary

We provide secretarial services as a standalone service, or as part of our Corporate Sole Trustee framework. As scheme secretary, we act as your executive arm, working closely with the Chair ensuring dependable and effective governance and delivery of pensions strategy.

General Code

Our approach to supporting clients in reporting against the Code is to create a holistic, fit for purpose governance structure that focuses on the bigger picture for trustees - whilst taking comfort that we have supported them with the detailed assessments needed.

Project governance oversight

We can provide experienced support to ensure your scheme event has the right level of independent oversight, scrutiny and ultimately gets delivered on time and to budget.

Experienced ad-hoc resource

From our broad spectrum of expertise we can provide ad-hoc support to help fill an interim resource requirement or bolster your existing team.

Advisor / Supplier Selection

We have developed an approach to provider selection exercises that ensures a client's needs are identified and then tailored alongside Pegasus best practices to help deliver a desirable project-based outcome.

Administration oversight

We are experienced in working with administrators to ensure the 'engine' of the pension scheme is working well. This is key to members receiving a high standard of service. We currently work with a number of our clients to provide admin oversight and have a tried and tested approach to making improvements.

GMP Project Support

GMP projects are complex. We can provide the missing link between the scheme administrator and advisors to ensure all parties are working effectively.

Outsourced Pensions Management

With a broad spectrum of expertise Pegasus provides permanent and interim pensions management solutions. Supporting all stakeholders Pegasus is expert at ensuring business as usual, as well as adding value to governance and strategic initiatives.

Investment Services

On investment the focus is on delivering trustees' investment objectives, managing the scheme's business plan and budget, and managing third parties like advisors and fund managers. The emphasis is on 'getting things done', whilst ensuring Value for Money.

The team has stepped into a high profile pension scheme of significant size and complexity and comfortably taken on all of the challenges presented.

Secretary to the Trustees,
Royal Mail DC Pension Plan

Supporting DB, DC, and Hybrid schemes and subcommittees

Combined experience from consultancy, in house, administration roles and more

25+ pensions professionals with diverse skill sets and experience

Meet our expert team

The diverse Pegasus team consists of 25+ pensions executives from a range of professional pensions backgrounds including consulting, in-house pensions executive teams (financial institutions and other sectors), master trust and administration management roles. The team has extensive experience working with small multi-million to large multibillion-pound schemes on the trustee as well as corporate side.

Pegasus provides peace of mind that arrangements follow best practice, continue to be compliant, and have the right resources at busy times

Pegasus is wholly owned by
The Law Debenture Corporation plc.

D LawDeb

Law Debenture has been providing independent professional pension trusteeship for over 50 years, taking on its first client in 1969, and now delivers trustee services from its London, Dublin, Manchester and Jersey offices. A team of 50+ pensions professionals – trustees and pensions executives – are appointed to over 200+ schemes with £325 billion in assets under trusteeship, meeting the ever-increasing need for professional trustee services and governance services.
