Law Debenture *Essentials*

Working with the Secretary to the Trustees and the Pensions Manager

Law Debenture has been acting as a professional pension trustee for over 25 years. Our experience, today applied to a large number of pension schemes of all types and sizes, means that we are able to bring a unique perspective to the working relationship between Trustees, the Secretary to the Trustees and the Pensions Manager.

Trustees bear a huge responsibility for the good management of pension schemes. The Secretary to the Trustees is a pivotal role which is vital to the effective operation of a Trustee Board both during and between meetings. The role of the Pensions Manager is crucial to the effective operation of a pension scheme and is often the key interface between the Trustee Board and the Sponsoring Employer.

The purpose of this Law Debenture *Essentials*, the fifth in the series, is to provide a framework for trustees to review the performance of their Secretary and the Pensions Manager. We recommend that trustees do this regularly, for example informal reviews annually, formal reviews every three years, with the emphasis on identifying areas for development. Our guide can also be used as a source of questions to ask when making appointments.

Our suggestions deliberately set high standards, which we hope will encourage further professionalism of these vital roles. We do, however, recognise that the assessment of individuals will need to reflect their particular circumstances and the range of duties they have assumed. We also recognise that the development process for individuals and roles may well take time to achieve. However, we do believe that this process will be worthwhile for all involved.

Essentials
Working with the Secretary to the Trustees and the Pensions Manager

How to use this guide

This document is divided into two sections covering the Secretary to the Trustees and the Pensions Manager. It is intended to help assess their performance and contribution. It can be used by either the Chair or the Trustees collectively, it can also be used as a form of self-assessment.

We recognise that in many cases the two functions may be carried out by the same person. In separating the roles it is our intention to help assess the Pensions Manager's performance and contribution in relation to duties performed for the Trustee body, as distinct from those owed to the employer.

Beneath each question there is a space for comment. Any comments considered relevant should be made, including identifying tasks which are the responsibility of another person (in which case the question should not be included in the assessment).

Trustees should be able to answer most questions, but we have provided an option to say that more information is required. Where there is lack of detailed knowledge, trustees should be given the appropriate information so they can form a complete view.

Beside most questions there are practical comments. The final column is for responses. We suggest a scoring scale of 1 to 4 where 1 = poor; 2 = satisfactory; 3 = good and 4 = very good. "M" should be selected where more information is required before being able to respond. The scale is intended to draw out how well you feel that the issue is being dealt with. For a few questions, a "yes" or "no" response is all that is required.

Trustees will find that best value will be derived from this document by considering and answering the questions and then discussing issues which have been identified, rather than from any detailed statistical analysis of the scores.

There is always room for improvement; trustees may find it helpful to focus on any areas of weakness or concern, as identified by scores of 1 or 2, and to discuss how these areas might be improved. In nearly all cases it will be helpful to show the results to the relevant party, to seek comments, and to discuss areas of potential improvement.

Law Debenture welcomes any comments from users of this document as to how it could be developed. These may be addressed to: bryan.king@lawdeb.com (tel: 020 7696 5905), or to your usual contact at Law Debenture.

Working with the Secretary to the Trustees

This section is intended to help assess the Secretary's performance and contribution. The role of the Pension Manager in relation to duties performed for the Trustee body, as distinct from those owed to the employer, are assessed in the next section.

Meetings

1 Are meetings planned well in advance?

Meeting dates for the next year should be set by (at least) the last meeting of the previous year. This applies to all meetings not only of the main Trustee Board but also where Trustee sub-committees are in place (e.g. investment/risk management/ill-health benefits/death benefits/communications/audit).

Comments:

2 Does the Secretary work constructively with the Chair on the structure of the agenda?

It is helpful for the Secretary to meet with the Chair and/or Pensions Manager in good time before a meeting to finalise the agenda and advisers to attend etc and shortly after a meeting to discuss actions and plans.

1 2 3 4 M

Comments:

3 What is the quality of meeting agendas?

Agendas should be well structured (grouping related issues); realistic; timed and consistent with the business plan.

1 2 3 4 M

Comments:

4 Are the agenda and supporting papers issued in good time?

Regulations state that the notice of the meeting should be sent to the Trustees no later than 10 working days before the meeting – unless the Trustees agree otherwise. Many Trustee Boards consider it good practice for the meeting papers to be circulated at least 7 days prior to the meeting.

1 2 3 4 M

In the case of a corporate trustee requirements are governed by company law and may be set out in the Articles of Association.
